## EQUESTRIAN SPORT: BIG IN BELGIUM

For the past few years, Belgium became an unavoidable place in the equestrian sports planet such as endurance. This is not a coincidence if the best riders of the planet, of all disciplines, come and live to Belgium. It is geographically in the middle of Europe and has an equine breeding of which the reputation widely exceeded the Belgian borders. Our country is, despite its small size, the perfect spot for all of the breeders, owners, merchants and riders.

With more than 405 000 horses registered on the Belgium ground, it is the highest worldwide concentration of the equine. In addition, Belgians breeders understood a long time ago the importance of mixing origins as long as the performance is there. Investors from the whole world are flying to Belgium to settle there, to mate their best mares or to buy our best products. They allow their riders to ride in competition with the best horses whose high-quality reputation no longer need to prove its worth. In an economic point of view, Belgian equestrian sports represent more than 17 500 full time jobs as well as an important financial aspect with more than 3,5 billion euros per year.

Unfortunately, horse riding in Belgium is not well known enough by media, which is not understandable if we look at its importance in the sports landscape. Belgian federation is the third in number of members with almost 90 000 riders affiliated (in reality, we know that only half of the riders are affiliated). It is just behind football and basketball. It is also and above all, by far, the first female sport of the country, maybe even of the planet ... From leisure to world championship, Belgium's equestrian sports is known and recognised by all the experts. Belgium is proud to have two jumping world champions in a row for the last 8 years. Which other sport can have this pride ?

I wish to this second edition of Brussels Equestrian Endurance Masters a great success and a long life for this event at the heart of our beautiful Capital which deserves it well.

Anne d'Ieteren, Honorary President of the BEEM OC

Philippe De Meersman, President of the BEEM OC

## THE BRUSSELS COMMUNITY LOVES HORSES

An evidence. Very simply. When the Brussels Equestrian Endurance Masters organizers knocked at the door of the Brussel-Capital Region and Visit.Brussels to promote their event, they quickly and fortunately understood that they were playing on a conquered ground.

It is necessary to know that a natural passing exists between Equestrian World and the European Capital. Brussels is one of the greenest city worldwide. Dozens of equestrian centres are established inside the wonderful Sonian Forest. It is the perfect spot to welcome such competition with an international influence which gathers the top riders and horses of the discipline. Belgians, and more particularly Brussels citizens, enjoy a high historic reputation in the vibrant equestrian world. The general public doesn't necessarily know about this reputation. Thanks to the Brussels Equestrian Endurance Masters! This lack of knowledge will be corrected. Brussels will offer to competitors, visitors and media its best, through a dream competition and a very professional organization staff.

On behalf of the Brussels-Capital Region, I hope that this second edition of the Brussels Equestrian is going to be the beginning of a real strategy hosting prestigious equestrian events for many years. In addition, the nobility and the attractiveness of this sport are as big as the economic and touristic potential benefits it can offer. Wishing the best to all participants and to the Organizing Committee, I would like to share with you this quote from Walt Morey : «A horse is the projection of peoples' dreams about themselves - strong, powerful, beautiful - and he has the capability of giving us escape from our blandness existence».

Patrick Bontinck - CEO Visit.brussels

# WELCOME IN THE BEAUTY AND THE DIVERSITY OF OUR CAPITAL

It is with a lot of pleasure that we welcome you in Brussels on the occasion of the second Brussel Equestrian Endurance Masters. During these three days, you will discover the beauty and the diversity that characterizes our Capital, one of the greenest in Europe, as well as its numerous gardens. This competition joins the wish and the will of the Council Assembly to develop major sports events in our capital.

So many arguments make of our Nation an essential destination for every horse-riding fan. That is why it was natural that we answer positively to the organizers of this second edition when they exposed us their audacious project : a great equestrian event in the heart of the European Capital.

You are today more than 200 starters to be present to this event and we can just thank you for it. The races that are waiting for you will allow you to travel through the most beautiful natural sites of Brussels and its associated forest. An exceptional biodiversity will be at your fingertips.

It is with great honour that the city of Brussels provides for the Brussel Equestrian Endurance Masters the park of La Cambre Wood. We wish you all excellent moments there. Don't hesitate to visit and enjoy the heart of Brussels downtown. We hope to see you again very soon in one of the numerous green spaces, sports areas, museums or terraces of our City!

Equestrianly yours,

The President and the Aldermen of the Brussels City Council Assembly

## SONIAN FOREST

The Sonian Forest is registered on the UNESCO list of world heritage sites since June 2017

### The beech cathedral

The beech cathedral takes up approximately 70 percent of the Sonian Forest. This makes the forest vulnerable. In an unvarying landscape like such as this one, fewer types of plants and animals can be found. Even in the soil, the number of useful insects and organisms is limited. In addition, more and more scientific studies show that climate change also has implications for the Sonian Forest. The ever-drier and -warmer summers are detrimental to the beech, except in the deep valleys.

Therefore, the three regions have decided in the future to reduce the portion of the forest that is devoted to beeches. At the same time, they want to preserve the characteristic landscape of the beech cathedral in certain parts of the forest.

### Trees of all ages

A Sonian Forest with a greater variety of trees and of different ages—that should soon be the forest's new look, with young and adult trees growing close together. The result: a varied and light-infused forest, where many animals and plants feel at home.

### Lanes and notable trees

The stately rows of trees along the lanes are an important distinguishing feature of the Sonian Forest. We must preserve and restore this heritage. The many rare and unusual trees here also deserve this protection. Currently, Bruxelles Environnement and the Association for the Protection of the Trees in the Sonian Forest are charting out the most notable trees. A hundred have been identified and marked.

### Parks and open areas

Throughout the course of history, parts of the Sonian Forest have been transformed into parks, arboreta or race tracks: the Bois de la Cambre, the Solvay Park, the park of Tervuren, the hippodromes of Watermael-Boitsfort and Groenendaal. These sites make the Sonian Forest rich in landscapes and habitats. Here you will find water gardens, unusual trees, grasslands and lawns, much different than the forest itself but no less valuable.

Along the perimeters of the forest, between these half-open areas and the Sonian Forest, live a great number of exceptional plants and animals which do not appear in the core of the forest. Moreover, these parks receive a great proportion of the visitors and in doing so form a natural buffer.

HH Sheikha Fatima Bint Mubarak Ladies  
Endurance CEIO Cup

## Brief on HH Sheikh Mansoor Festival's activities

Endurance competitions has now become an integral part of the HH Sheikh Mansoor bin Zayed Al Nahyan Global Arabian Horse Flat Racing Festival which was initiated by His Highness Sheikh Mansoor bin Zayed Al Nahyan, Deputy Prime Minister of the UAE and Minister of Presidential Affairs in 2009.

HH Sheikh Mansoor has through the Festival followed the path shown by the late Sheikh Zayed Bin Sultan Al Nahyan, HH Sheikh Mansoor's father and the founding President of the UAE as the Festival's focus is on the Purebred Arabian horse and other equestrian activities.

The main mission of the Festival is to ensure that Purebred Arabian horse- which is very much a part of the UAE's history, culture and heritage, is preserved, protected and promoted. The Festival's role is to not only promote Purebred Arabian horse racing and enhance the status of this beautiful creature, but also promote Abu Dhabi as the capital of both the sporting as well as the racing capital for Purebred Arabians.

The HH Sheikh Mansoor bin Zayed Al Nahyan Global Arabian Horse Flat Racing Festival organises four popular racing series around the globe for Purebred Arabian horses. These include the Sheikh Zayed Bin Sultan Al Nahyan Cup series which culminated in the Euros 1.2 million Group 1 Sheikh Zayed Cup in November in Abu Dhabi-the world's richest race for Purebred Arabians.

The Festival also stages the HH Sheikha Fatima Bint Mubarak Ladies World Championship series, the HH Sheikha Fatima Bint Mubarak Apprentice World Championship series and the Wathba Stallions Cup (Earlier run as Wathba Stud Farm Cup) racing series.

The Festival also organises the annual Darley US Awards and the HH Sheikha Fatima Bint Mubarak International Awards in the US and the now very important World Arabian Horse Racing Conference, another annual event.

The Festival also organises the HH Sheikha Fatima Bint Mubarak Conference for Education and Training.

The International Federation of Horse Racing Academies (IFHRA) is another initiative by HH Sheikh Mansoor to promote upcoming jockeys.

## Endurance

The Festival also stages Endurance rides in the UAE and abroad, including specialised ones for Ladies, Young Riders and in the Open category. The most important being the HH Sheikha Fatima Bint Mubarak Endurance Cup series.

Belgium has been a popular stop for the Festival both for flat races as well as for Endurance and this is reflected with the success the Masters event had in the past.

Next year in 2018 the Festival marks the 10th anniversary since the launch of HH Sheikh Mansoor bin Zayed Al Nahyan Global Arabian Horse Flat Racing Festival by His Highness Sheikh Mansoor bin Zayed Al Nahyan. It will be a remarkable year with a lot of activities fittingly celebrating the 10th anniversary.

## Wathba Stallions Cup

The Wathba Stallions Cup was previously run as the Wathba Stud Farm Cup. HH Sheikh Mansoor has urged the Festival to lay special focus on this series as it directly impacts racing at the all-important grass roots level. It encourages the small owners and small stables to participate among themselves and then help them to further their cause in Arabian racing.

With the full support of Her Highness Sheikha Fatima bint Mubarak, Chairwoman of the General Women's Union, Supreme President of the Family Development Foundation (FDF) and Head of the Supreme Council for Motherhood and Childhood, Endurance rides for women riders has taken a new dimension and much progress has been achieved.

# The Equestrian Endurance

## A real long distance race

The International Endurance Competitions (CEI) are held over distances ranging from 100 to 160 km completed by one horse and one rider in one day, mainly cantered. The races are divided into loops after each of which the horses are subject to a strict veterinary control and are obliged to rest 45 minutes. Any animal showing any locomotor or metabolic problem is not allowed to continue the competition. The average removal rate is 50%.

The Brussels Forest has everything necessary for the success of a high-level endurance competition (200 kms of paths accessible to horses with half only dedicated to horses, quality of the ground, majestic sites, ...).

### What there is to know

- 6 million horses are stationed in Europe for 400,000 FTE and an economic impact of € 100 billion.
- 350,000 horses are stationed on the Belgian territory. It is the world's largest concentration of horses with an annual economic contribution of over € 3 billion.
- Equestrianism is the third most practiced sport by the Belgians (after football and basketball). It is also the first female sports.
- Equestrian disciplines are a medals factory for Belgium. Mainly Jumping and Endurance.

After jumping, endurance is the second equestrian discipline of the International Equestrian Federation (FEI). In 2015, the FEI has awarded to the Belgian project, called Brussels Equestrian Endurance Masters (BEEM), two major events for 2017: the Senior European Championships and the World Championships for Young Horses.

The Organizing Committee (OC) of the BEEM immediately took the opportunity to establish a competitive program covering 2016, 2017 and 2018, with a focus in the Senior World Championships 2020 and the sustainable positioning of Brussels as an unmissable step of the annual international calendar (3 days of competition on an identical circuit each 3rd weekend of August).

- The FEI manages eight disciplines. Endurance is the second discipline of the FEI (after jumping). Introduced in 1990, Endurance shows an extraordinary increase. Sixty nations (from all continents) practice Endurance.
- Enthusiasm for the Endurance is maximum in the Persian Gulf where the stables of the Princes are investing heavily the international sector of the sport and the purchase of performant horses in particular.

A Belgian group of companies covering all the aspects of the equine industry

## Activity

- 405.000 horses (the highest concentration world wide).
- 77.000 affiliates (200.000 practitioners).
- 3<sup>rd</sup> sport practiced (1<sup>er</sup> women's sport).
- 2.000 equestrian centers.
- 35 stud-books certified.
- 2.120 companies (insignificant number of bankruptcies).
- 17.500 full time equivalents.
- 1.200 events / year.
- 12,3 % of the total agricultural land dedicated to horses.

## People & Horses

- A large number of medals and victories in all equestrian disciplines at international level : jumping, endurance, flat racing, trotting, driving, eventing, reining, para-equestrian, dressage, pony games, vaulting, trec, ...
- During the World Equestrian Games in Lexington (2010) and Olympic Games in London (2012), the best jumpers had a Belgian origin.
- Livestock products are exported all over the world.
- A high level of expertise in breeding, sport and various equestrian businesses.
- Belgium offers an exceptional environment for all international riders, for the best companies and for the investors in the equestrian sector.
- Number of international riders and coaches are installed in Belgium.

## Infrastructures

- Equine Clinic of the Liege University.
- Center for Equine Research and Development (Linalux-Montlesoie).
- Racetracks and venues for all disciplines.
- Professional teaching site for all the equine industry.
- Liege Airport specialized in the transport of horses.

## 4 major assets !

- **Quantity** : high number of horses, riders, professionals, structures, competitions
- **Quality** : the best international horses, riders and equestrian pros from all the world are leaving in Belgium
- **Diversity** : all types of horses, disciplines, learnings, companies, professions, know-how, ...
- **Proximity** : in the middle of Europe, a small state of 360 km top/ 260 km wide

# When comfort comes first...

Trust Wintec to combine world leading systems for your horse's comfort with unprecedented customisation for rider security.

Lightweight, weatherproof and easy-care these saddles have been perfected for the most demanding of disciplines – Endurance.

Whether competing at any level, or enjoying time out exploring new trails, the Wintec Pro Endurance puts your comfort first!

Wintec Saddles featuring the CAIR® Cushion System and EASY-CHANGE® Fit Solution offer the highest flexibility in achieving a customised fit, ensuring your horse's absolute comfort and your peace of mind.

View the full range at [wintec-saddles.com](http://wintec-saddles.com)

Elisa Arnould, Belgian Endurance Champion 2016 competing in the Wintec Pro Endurance saddle.

**TIME TO RIDE. TIME TO ENJOY.**

# BEEM recommendations and short briefings

## INFORMATIONS ABOUT THE HOSPITALITY !

- The Bois de la Cambre is a registered and protected area. Be respectful. Use garbage cans. Be also careful we are in « state of alert level 3 » do not leave your bags on the ground in the site.
- The grass in the Bois de la Cambre is reserved for pedestrians. So please don't build any paddock and ride on dedicated paths only walking (for training, you will canter and trot in the forest only). You can go on the grass with the horses but only in hand, not mounted. Everyday, thousand of people are walking, sleeping, playing, chilling in the Bois de la Cambre who is the Brussels main public park. Security is essential, don't take any risk with your horse regarding the normal attendance of the place: pedestrians, cyclists, joggers, families, kids, babies, and eventually dogs, who are not allowed to be free !
- 1 resting marquee (4mx3m) per horse is provided by the OC in the resting area. Don't need to bring yours !
- The FEI boxes will be established on a macadam road. Every box will be equipped by 2 wood shaving bags. We accept only shavings as bedding. No other product.
- Additional shaving bags will be available for 10 € / bag
- Hay will be also available : dry hay / wet hay (Jopack) : 12€ / bag
- Stables will be opened from Monday 12th at 08:00 to Sunday 20th at noon.
- If you need an accommodation for your horse before or after, please contact Romane at Equimov 00 33 6 71 87 52 22
- The stables are only for horses in FEI competitions. The boxes will be given in function of each competition. Please take the box designed by your name. By the way, if you have a special request please contact our stables manager Jean-Claude at 00 32 478 21 21 09 or write to [info@brussels-endurance.org](mailto:info@brussels-endurance.org)
- From Wednesday 16/08 at 14:00, the stables access reserved to the people wearing a bracelet.
- For the parking. The place in front of the box (entry Brazil) is only for trucks and trailer. When you finished to deposit the horse, follow the instructions of the stewards to park your trailer and exit your car. You may park the cars everywhere it is permitted but places are reserved for participants in Flore Avenue and Victoria Avenue (excepted days of competitions where it's only for assistance cars).
- For training, the beginning of all tracks is at 50 meters of the stables. See map and follow the arrows. Please, stay walking in the Bois de la Cambre.

## INFORMATIONS ABOUT COMPETITIONS !

- The essential of the circuits are made of forest riding tracks, with a soft ground. However, a few portions of the tracks might be softless because of the actual heat or because of some portions of stony paths. We advice riders to plaque horses at less at the front legs to get more confort on the different grounds. A good solution can be obtained by alloy aluminium shoe and grey plaques or by Duplo.
- The Sonian Forest is very popular in Belgium. During competitions or trainings, sometimes even when you ride on dedicated equine tracks, you are supposed to meet pedestrians, cyclists, joggers, families, etc ... (unfortunately sometimes dogs in liberty). The OC is making a big publicity campaign to avoid any accident. However don't forget the forest code and the driving code are making part of the endurance rules. So be very careful regarding the normal attendents of the forest (including leisure riders) and regarding the crossing of driving roads (heavy traffic : you are in the Capital of Europe !). The OC will provide 80 people (police, staff, marshalls) to assume the security during the 3 days of competitions. You have to follow the indications given by these people who deserve all your respect.
- Same thing for your grooms and assistance on the main site and on the crew points. Bad behavior against the public, the police, the marshalls or the staff, will be automatically punished by an elimination.
- All the plastic bottles must be automatically collected ! Any groom forgetting a plastic bottle in the forest will see his rider eliminated.
- After the BEEM 2016, this is the second time in the history of Belgium that the 5 000 acres of the Sonian forest are available for a sport competition. If we want to see the BEEM organized in the future, we have to be perfect regarding the security, the ecology, and the respect of every user of the forest and of the city.

# BEEM recommendations and short briefings

## STARTING / ARRIVAL

- Morning start: access by the road down the stables (on the right) to go to the start of the loop 1 on competition days
- The color and distance of the loops are indicated by a board on the starting line
- The starting line loop 1 and final arrival are different from the line of re-startings and intermediate arrivals.
- Only riders on their horses can access to the reserved zone for starting / No grooms beyond fences
- Starting of the races at the latest 1/4 of hour after the planned hour
- By safety in the park it's forbidden to gallop on the pavement of the last 500 meters of the intermediate arrival (refer to the signals on the site)

## RACES MARKING

- Marking (round or arrows) are on your right
- Number of kilometers / Every loop is individually kilometered from 0 to 35 / 0 to 30 / 0 to 20 and the last kilometer
- In case of fall or emergency call the number 00 32 491 89 89 69
- Follow the signs instructions. You don't have the priority to cross the road
- In case of incident, accident or dispute, the traffic rules will be the only current rule for the riders and the assistance.

## ASSISTANCE

- **Respect the traffic rules, you do not have the priority.**
- Only 1 vehicle by horse on the official assistance park (Victoria Avenue) on authorized positions.
- You must stick the sticker « sunvisor » on your windscreen and the circle number behind the vehicle
- No restriction for the vehicles on the different grooming points. Everybody can help on the grooming points (no need of bib) in a distance of 100 m before the main point and 100 m after (presence of marshalls and officials).
- The sticker and the number are only available for one day for the corresponding race, don't forget to change it every day if you keep the same assistance vehicle
- **Any « wild » assistance (out of the designed spaces or car in the forest) will result in the elimination of the competitor.**

## GROOMING- VET GATE- RESTING: controlled areas at the entrance and exit

- Grooming access : reserved to people wearing a bib
- Vet Gate access : 2 persons holding necessarily riders and groom vests with the same number
- Resting access : reserved to people holding a bib vest (start number), 1 rider + 3 grooms + 4 staff members for the full teams (chef, veto, physio, farrier)
- Installation of the resting by the competitors Wednesday 16/08 from 14:00 for the CH-EUR. For the same competition, installation of the grooming for water Wednesday 16/08 from **04.30 pm after the Pre Ride.**
- Installation of resting and cooling for 18 and 19/08, the day before at 19h00.
- **Pre Ride:** Horses presentation for the veterinary control, must be in numbers order with the groom bib and the description book of the horse (1 person in the Vet gate, appropriate dress required). See FEI schedule for the exact plannings.

## VETERINARY INFORMATION

- The clinic for horses in care is located near at the top of the box installations.
- All the veterinary acts have to be realized in the clinic under the supervision of the FEI Vets.
- It's possible to realize blood sample analysis during the whole week with the help of Synlab Laboratories who gives to the BEEM instruments, technicians and know-how.
- 2 boxes named "Crash Box " - 2 boxes of sampling for the control "Anti Doping " will be disposed at the clinic entrance nearby the Cooling area. All the veterinarians services (blood sample analyses) and disposals have to be paid cash by the competitors.

 x-bionic® sphere Šamorín

We invite you to

**FEI World Endurance Championship  
for Young Horses 2018**

**22. September 2018**  
x-bionic® sphere, Šamorín, Slovakia

**x-bionic® sphere**

the universe of sports, leisure  
and innovation

The organizing committee of the BEEM 2017 would like to thank particularly and in disorder:

- The college of the city of Brussels
- The services of the city of Brussels
- The mayors of the various municipalities crossed by our routes
- The police services
- The emergency services
- The forest administrations of the 3 regions
- As well as our volunteers, sponsors, officials, federation, riders, grooms, suppliers, journalists and public who made this project possible

We will allow ourselves to quote the following people, we already apologize for the forgotten names:

- Patrick Huvenne
- Gregory Reinbold
- Nicolas Bronchain
- Damien Bauwens
- Maurice Braconnier
- Rita Glineur
- Vanessa Issi
- Jean-Christophe Pierre
- Chrystele Legros
- Nathalie Bucken
- Alain Houpe
- Lara Sawaya
- Adnan Al Nuaimi
- Benoit Dallemagne
- Marie Dallemagne
- Nicolas Theodoroudis
- Patrick Vermeiren
- Claudy Collard
- Marc Chovelon
- Ingmar Devos
- Manuel De Mello
- Brigitte Caut
- Myriam Mejblum
- Wendy Laeremans
- Eugène Mathy
